### PROFILE INFO

Experienced in ML data engineering, data visualization, and data science, I specialize in building robust ML data pipelines, optimizing workflows, and integrating machine learning models. With strong data visualization skills, I communicate complex information effectively and contribute to the end-to-end data science process. I'm a collaborative professional always eager to tackle complex data challenges and drive impactful results. Let's connect and explore opportunities for leveraging data for informed decision-making.

### WORK EXPERIENCE

2022 - 2023

#### Junior Data Scientist

Assisted in the development of machine learning models for predictive analytics.

#### Business Analytics

Proficient in Business Analytics, utilizing data-driven insights for informed decision-making.

#### Neural Networks

Applied deep learning techniques to solve complex data challenges. Dedicated to leveraging neural networks to derive actionable insights and enhance project outcomes.

Continuous learner, staying updated with the latest advancements in the field.
